

LIQUID RING VACUUM PUMP Model AVD 425CS – 423SS

PERFORMANCE FEATURES

- Two-stage pump for optimum efficiency across all inlet pressures.
- Isothermal compression to safety handle any thermally sensitive and explosive gas.
- Right choice for any wet process.
- EAL TR CU 010/2011 certification.
- EAL TR CU 012/2011 certification.

NOTES :

The given data are referred to dry air at the temperature of 20°C, at the atmospheric discharge pressure (1013 mbar), and of supply of service water at 15°C temperature. Performances tolerance $\pm 10\%$.

Product specifications and data are subject to change without notice.

LIQUID RING VACUUM PUMP

Model AVD 425CS-423SS

APPLICATIONS

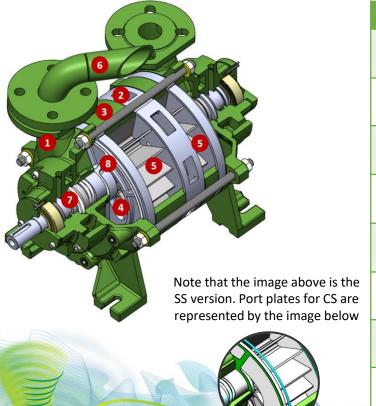

- Vacuum industrial processing
- Sterilization
- Extrusion
- Degassing
- Evaporation and distillation
- Priming
- Vacuum sewage
- Bottling
- Depoultry

FEATURES

AVD 425CS – 423SS are two-stage liquid ring vacuum pumps, suitable to operate at deep vacuum by taking advantage of two impellers working in series. The pumps are bareshaft type, and the shaft connection is ensured by a flexible coupling. The shaft seal is made by means of a simple acting mechanical seal according to DIN 24960, one each pump end. Shaft sealing devices other than the standard require a technical assessment that can be carried out on request. The final end vacuum that can be achieved is 33 mbar abs at standard conditions.

AVD 425CS – 423SS guarantee wide versatility of operation and high reliability. The only moving part is the rotor, and minimum maintenance is required. The pumps work without the need to be constantly lubricated. They also operate with few vibrations, and with a limited noise level.

MATERIALS OF CONSTRUCTION

| # | PART | CS | SS |
|---|------------------------------|---------------------------------|------------------------------------|
| 1 | Suction and discharge casing | CAST IRON (ASTM A278 CL.250) | SS 316 (ASTM A351- CF8M) |
| 2 | Intermediate casing | CARBON STEEL (ASTM S355) | SS 316 (ASTM A240) |
| 3 | Housing | CAST IRON (ASTM A278 CL.250) | CAST IRON (ASTM A278 CL.250) |
| 4 | Port plate | SS 316 (ASTM A240) | SS 316 (ASTM A351- CF8M) |
| 5 | Impeller | SS 316 (ASTM A351-CF8M) | SS 316 (ASTM A351- CF8M) |
| 6 | Manifold | CARBON STEEL | SS 316 |
| 7 | Mechanical seal | CARBON/SIC/ VITON/SS316 | CARBON/SIC/ FEP/SS316 |
| 8 | Gasket | ARAMIDIC FIBER | ARAMIDIC FIBER |
