LIQUID RING VACUUM PUMP Model AVDL 550CS – 548SS

PERFORMANCE FEATURES

- Two-stage pump for optimum efficiency across all inlet pressures.
- Isothermal compression to safety handle any thermally sensitive and explosive gas.
- Right choice for any wet process.
- EAL TR CU 010/2011 certification.
- EAL TR CU 012/2011 certification.

TÜV IT 19 ATEX 049 AR

 Designed to guarantee safety in special and hazardous applications (ATEX).

NOTES : The given data are referred to dry air at the temperature of 20°C, at the atmospheric discharge pressure (1013 mbar), and of supply of service water at 15°C temperature. Performances tolerance ±10%.

LIQUID RING VACUUM PUMP

Model AVDL 550CS-548SS

APPLICATIONS

- Vacuum industrial processing
- Sterilization
- Extrusion
- Degassing
- Evaporation and distillation
- Priming
- Vacuum sewage
- Bottling
- Depoultry

FEATURES

AVDL 550CS – 548SS are two-stage liquid ring vacuum pumps, suitable to operate at deep vacuum by taking advantage of two impellers working in series. The pumps are lantern ones, meaning that there is an intermediate support which allows the direct mounting of flanged type "B5" motors. The shaft connection is ensured by a flexible coupling. The shaft seal is made by means of a simple acting mechanical seal according to DIN 24960, one each pump end. Shaft sealing devices other than the standard require a technical assessment that can be carried out on request.

AVDL 550CS – 548SS guarantee wide versatility of operation and high reliability. The only moving part is the rotor, and minimum maintenance is required. The pumps work without the need to be constantly lubricated. They also operate with few vibrations, and with a limited noise level.

MATERIALS OF CONSTRUCTION

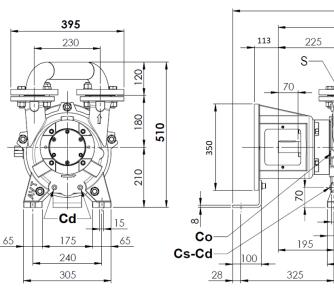

#	PART	CS	SS
1	Suction and discharge casing	CAST IRON (ASTM A278 CL.250)	SS 316 (ASTM A351-CF8M)
2	Intermediate casing	CARBON STEEL (ASTM S355)	SS 316 (ASTM A240)
3	Housing	CAST IRON (ASTM A278 CL.250)	CAST IRON (ASTM A278 CL.250)
4	Port plate	SS 316 (ASTM A240)	SS 316 (ASTM A351-CF8M)
5	Impeller	SS 316 (ASTM A351-CF8M)	SS 316 (ASTM A351-CF8M)
6	Manifold	CARBON STEEL	SS 316
7	Mechanical seal	CARBON/SIC/ VITON/SS316	CARBON/SIC/ FEP/SS316
8	Gasket	ARAMIDIC FIBER	ARAMIDIC FIBER
9	Lantern	CAST IRON (ASTM A278 CL.250)	CAST IRON (ASTM A278 CL.250)
